SUBJECT.

Levy of Contribution from the ryots for the Improvement of the Vijauaddi channel

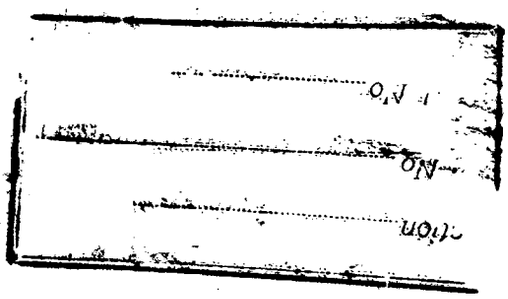
Indexed.

W D 88—GPB—50,000—24-7-16

(1)

Memo:

Letter No 517/87 of 26th December 87.



In submitting certain correspondence for orders ~~the subject~~ relating to the contribution made by ~~from the~~ land holders towards the cost of the proposed improvement of the Vijanaddi Channel in the Mysore District, the Commr Ashtagram Division stated that the land holders under the said Channel were not disposed to pay any contribution, although they were fully aware of the advantages of the proposed improvements and

and hopes of sufficient means and assets to pay their quota. The principle of contribution being recognized, the Deputy Commr and the Taluk authorities were both of opinion that the contribution might be fairly fixed, as was done in the case of the Chik. Devaray-Dasar Channel at 4 Rs per Khandi, and levied by coercive measures in the event of the Ryots persisting in refusing to pay the same. The Commr concurred in this

this as the rate was
dear and within the
easy reach of even
the poorest ryot
holding lands below the
channel, and added
that the total amount
of contribution at this
rate would be Rs. 11,151.

2. In this Office
Pro: No. 9215/51 d/ 23rd
January 78, it was
directed that, on the
principle already ad-
mitted in the case
of the Chik. Devaraj-
Sagar Channel, the
Contribution in this
instance be fixed
and enforced as proposed
by

by the Deputy Commr and supported by the Commissioner.

3. The above Proceedings were also communicated to the Secretary D.P.W., and on a perusal of the papers now received from the Irrigation Department, it would appear that the Superintending Engineer, referring to the Commrs letter to this Office, No 517/87 of the 26th Dec 1877, (vide para 1 above) to which the order in question was a reply, noted the Commrs

× Vide No 335 of 1st February 1878.

attention to the Revenue Statement received with his No. 43 of 12th May 17, which shewed that the total area of land available for cultivation under the channel was 9,112 acres, being equivalent to 4,410 Kandys, and would give Rs. 17,636, as shewn in the margin. Colonel Johnson added that the Commissioner appeared to have calculated on 2,788 Kandys only; and requested him to explain the above discrepancy at an early date, as the Government of India had called for information as

Present Cultivation —	6635-11-38	=	3211-9-8	= 12,844 — " —

by the Commissioner
for report, submitted * (of which
a statement ~~marked A~~
an abstract is given below)
~~herewith~~, shewing the
extent of lands available
for wet cultivation under
the channel and the revised
amount of contribution
at 4 Rs per Kandy; and
reported that the increase
referred to viz: 2476 acres,
was shewn under the
impression that the
proposed improvement

was

Serial No. 8 1
Div

Ashtagram Commissioners Office
Mysore, 26th December 1877.

The Secretary to the Chief
Commissioner of Mysore.

As directed in Docket No. 3831 dated 29th November /77 from the Superintending Engineer of Irrigation, I have the honor to submit for the orders of the Chief Commissioner the marginally noted correspondence in original relating to the contribution towards the cost of the proposed improvement of the Vijianaddi Channel in the Mysore Distt.

No. 1902 of 15th June 76. from Supt. Engr.
No. 476 of 22-11-77. to Supt. Engr.
No. 3831 of 29-11-77. from Supt. Engr.

The improvements contemplated are of the same description as those already sanctioned for the Chickdevaroy Sangar Channel. They include also two dispersive Straight Cuts. The result of these improvements will be an increase of nearly 9000 Rupees over the present Revenue, by converting Benga and Dry lands into wet cultivation and the charging full rates of wet assessment on them, which the occupants have agreed to pay.

The only question now to be decided, relates to the contribution from the landholders towards the cost of the above improvements. As usual with the ryots of Ashtagram, they are not disposed to pay any contribution although they are fully aware of the advantages of the proposed improvements, and possess sufficient means and assets to pay their quota. The principle of

contribution

Contribution being recognized, the Dy. Comm. and the Calcutta authorities are both of opinion that the Contribution may be fairly fixed as in the case of the Chickdewaray Sanger Channel at Rs 4 per Candy, and levied by coercive measures in the event of the Ryots still refusing to pay the same.

I concur in this, as the rate is fair and within the easy reach of even the poorest ryot holding Lands below the Channel. The total amount of Contribution at this rate will be Rupees 11151. 0. 0.

I have the Honor to be
Sir
